 16. An electric eye will be used for the barrel racing event and paid for by the barrel racers. The times will be timed to the thousandths. If more than one

rodeo is held on the same weekend, the rodeo with the most prize money will use the electric eye. The other rodeo will use an approved field flag judge and the runs will be timed in the hundreds.

17. All field flag judges shall flag the horse's nose in and the horse's nose out and a field flag judge shall be used as a backup to the electric eye for each run. Two timers are also required along with the use of the electric eye. 20. If the eye cannot be set up and working within 15 minutes, then all hand held times will be used for the entire rodeo.
21. Raking will take place at the Finals. The first four barrel racers in the standings find the rakers for the first performance, the second four find rakers for the second performance, and the third four find rakers for the third performance. Failure to do this is a \$25 fine.

(a) Yellow carpenter string will be used at the Finals rodeo in both the Senior Men's Breakaway and Ladies breakaway. It will be suggested to the committees to also use it throughout the season.

4. Rope must be thrown to be considered a catch. Contestant may not ride up by calf and drop loop on. Rope must first go around calf's head and remain around calf's neck when rope breaks away to be a legal catch. Legal catch is considered around the neck only. There will be a designated person either at catch pen or mounted in arena to help flagger decide if catch is legal or not at point of breaking away. This person to be chosen by judge and/or contestants. (This may be a different person each performance).
5. The judge will flag contestant when the rope breaks from the saddle horn. Time will then be taken.

4. The contestant must be mounted on a horse and must ride from the starting line to the goat, dismount, throw the goat by hand and tie any three feet together. A field flag judge will flag the horse's nose to start time and a second field flag judge will flag the end of the tie to stop time. The goat's legs must remain crossed and tied for five seconds.
5. The contestant must stand back three feet from the goat before the field flag judge will start the five second time limit on the tie.
6. If the goat is down when the contestant reaches it, the goat must be cleared off the ground before tie is made. If contestant's hand is on the goat when the goat falls, the goat is considered thrown by hand.
7. Once a contestant has signaled her tie complete, she may not again touch her tie.
8. Should the horse run over or contact the goat or rope at any time until flag is dropped, whether he touches the rope or not, the contestant will be fined ten seconds. If the goat should breakaway because of the fault of the horse, the contestant will be disqualified. If the goat should break away any other time, it will be left to the judge's decision whether she will receive a re-run.
9. If there are enough contestants in any one performance to warrant using two goats, the same two goats shall be used in all performances and

slack. The same order of goats shall be used in all performances and slack.

10. The number of contestants to tie each goat shall be split in the middle. If there is an uneven number of contestants, the larger half goes on the first goat.
11. If goats are used in the arena at the same time, always tie the left goat first. The contestant is responsible to tie the correct goat.

K. Mixed Team Roping:

Event would be an optional event for rodeos to have as another women's event. Mixed Team Roping will have one vote on the board of directors. A team must include a female. Points will count towards the women's all-around and rookie awards and will not count for men's all-around and rookie awards. Only a woman can win the mixed team roping event.

The top 12 women will qualify for the Finals and would be able to invite the partner of her choice so long as that partner is a member of the N.R.C.A. The cattle for mixed team roping will be drawn for as in other timed events.

The rules for mixed team roping shall be as follows:

1. The header will start from behind a barrier out of the steer wrestling side.
2. The header and heeler may come one from each box or both from the steer wrestling box.
3. Each contestant will be allowed to carry but one rope. At all one-headers, only two loops per team shall be allowed (one loop at each end). Roping steers without turning loose of the loop will be considered a no catch. Ropers must dally to stop steer. The tie face option to tie a rope can only be used by those heelers fifty years of age or older at all rodeos. It is their responsibility to notify the flag judge if they are tied on. Also all women heelers may be tied on.
